Morton said all that
could be done was to try to
get the group off the stage
as soon as possible

A rock-and-bottle-throwing melee
between unruly fans and police
the other night at the Whisky has
put an end—at least temporarily—to the
club's policy of booking local punk bands.

There's been a lot of controversy following the
mini-riot at the WHISKY last week, when BLACK
FLAG and D.O.A. played.

If you are
worried about seeing Black Flag again — they've
managed, due to their, shall we say, easily over-
excitable audience, to get themselves prohibited
from playing most of the clubs in town — they will
be at the STARWOOD on November 19.

(Imagine real nice orchestra music)
"It was such a lovely Sunday afternoon.
Mom & dads brought along the kiddies,
there was plenty of potato chips and
baseball and lemonade. There was a
playground and ducks and love and
niceness and kisses all over until,
(horrible music creeps in)
"Somebody let Black Flag into the park..."

A young scholar once wrote: "Civilization is a behavioral sedative humans impose on their young to prevent them from growing into killers." Although societal constraints are pervasive, an occasional adolescent manages to pierce the protective bulkwark and blow someone's face off. Still others crumble under the weight of the mold. They find themselves crimped between an animal compulsion to resist and a perceived lack of alternatives. These are the child casualties of our times; so-called young bums who have abandoned the future for an addled asylum of self-pity, sugar, and malaise.

"Things weren't always this way for me. I had the playground on a string until I met Wendy Gillette. We hit it off real neat at first, but nothing I ever did was good enough for her. I couldn't hang upside down from the top of drive-in movie screens like her older boyfriends. And all the scar tissue from my heart operations grossed her out. She wanted me to be someone else, and I didn't want to lose her. That's when I turned to chocolate for help. Boy, I was a real bigshot with everyone when I had my chocolate. A lot of good it did me, though. She transferred to another district, and I went to pieces. The chocolate was the only thing I had left in my life that didn't hurt. I got so I was living on Toll House morsels and semisweet cooking chocolate and fudge ice cream syrup until my back teeth got wrecked and I got sick. The other kids saw the warning signs, but do you think I'd listen? No, sir, not me. Not me."

"You wanna know somethin'? I been in trouble all my life. Started with a little vandalism—you know the story. They built this new Little League park, and I got right over there and smashed out all the lights and cut up the bases. I always had this feelin', you know, that it was kind of like my job to wreck stuff. Hazing developments were my favorite. That and cars. Well, the trucks finally grabbed me, and I said to myself, 'This is bullshit', and I took off. I began running away ever since. And you can tell those shits back at the kiddie joint that Nelson's got a lot more Coke machines to deal with before they ever see me again. You bet your ass."

GREGORY GINN .5.

"My mommy and daddy used to dress me up in shorts and a blazer, you know. They'd pose me for Sunday afternoon pictures with one hand in my pocket like I was the fucking 'little man' of the house. I think Daddy's family used to have a whole lot of money, and he lost it all someplace. He liked to pretend he was still rich by dressing me up and crumpling all sorts of manners down my throat. What is this crating one bite at a time shit, anyway? Daddy was so far gone he used to call the family room the library. Robert, your mother would like to see you in the library. Jesus Christ! The 'library' had two plastic chairs and a kitty litter box. I had to get out, you know. Out here on the street nobody puts their bullshit on me. I can eat with a screwdriver for all they care."

Now, Even If You Have Been Thin For Years, You Can

GAIN ^{UP} TO 5, 10, 15 POUNDS

with dangerous drugs, without exercise
with unpleasant tasting medicines,
MEN—a pressive manly body,
MEN—a curvier, glamorous figure

If you had started this amazing method just a few short weeks ago, right now you could be up to 5, 10, even 15 pounds heavier or more!

At last, no matter what you have tried, no matter what you have done, if you are a normally healthy person, you can gain to 5, 10, 15 pounds or more safely, sure, pleasantly, and that's a guaranteed money back fact.

Yes now, even if you have been thin 1 year, you can have the full, more attractive body you have always wanted without dangerous drugs, without heart-straining exercise, without unpleasant tasting medicines!

This exciting method is easy, pleasant, and medically sound beyond a shadow of a doubt, and your own Doctor could tell you the same thing.

HERE'S ALL YOU DO

Before meals, or whenever you feel like it, you take delicious, chewable, nutritionally fortified GAIN tablets and that's all! No other medication to take. Nothing difficult or unpleasant to do, and without even being aware of it, a wonderfully exciting change takes place.

Those high-calorie GAIN tablets are rich in body-building materials! They not only add weight themselves, but they sharpen your appetite! You look forward to meal-times, and without even realizing it, you start to eat more and almost immediately the weight gaining process begins!

As you follow your GAIN Plan which includes nutritional high-calorie menus, you add pounds and inches to your arms, legs, chest, hips, everywhere. You'll be amazed at the fantastic transformation that occurs... as thin, unattractive areas start to develop into new magnetic appeal. You'll be

MONEY-BACK GUARANTEE

Send for the GAIN Plan today. Try it for 7 days entirely at our risk. If, at the end of 7 days, you haven't started to gain pounds and inches and to look better and to feel better. If you aren't convinced the GAIN Plan is a safe, pleasant way to gain weight, don't keep it! Return the empty bottle and get your money back immediately, no questions asked!

VITAL NOTE

A recent issue of a famous medical journal reports on a recent government controlled study. This study, conducted over a 24 year period on 5,000 underweight and overweight men and women, proves that being underweight is as injurious to health and longevity as being overweight.

...Black I embarked upon my current engineering activities (please, let's not call it a career) when I discovered Media Art, a recording studio under construction. So there I was fulfilling one of my biggest dreams. But on the other hand there were some absolutely excellent...

And then what? So I began news supply...

I first encountered Greg Ginn who was one of the strangest people I had ever met in the South Bay. Here was someone totally out of step with the sunshine and the surf and the skateboards, and although you did have your outcast types who blended into the environment he even seemed out of step with them. But leave it to my special knack

I mean I had nothing better to do than remix a song here, remix a song there (just for practice), and one night, about a week after he had joined, I took Der up into the studio as kind of an experiment "just to hear what it sounds like, y'know." We put down a vocal on
